

# Eco Urinal Cartridge

PATENT PENDING

**THE ECO URINAL CARTRIDGE** uses a flexible tube manufactured from a space age, plastic material (used in Leg Urinals for Astronauts) that is treated to roll up when liquid is not passing through, but is flexible enough to open and permit liquid flow, from an intermittent drip to high rate flows. With the Eco Urinal Cartridge you're not stuck having to constantly buy replacement cartridge, or add sealant liquid. The Eco Urinal Cartridge is not affected by urinal cleaners normally used in public restrooms. The Eco Urinal Cartridge will fit urinals manufactured by Waterless Co.

See <http://ecourinalcartridge.com> for warranty information.

Cost Savings per 10 Eco Urinal Cartridges
